Lapeyre Stair Model 03AA / 04AA
Stair Design Questionaire

Please send a quotation to: Contact: _____ Company: _____
Phone: _____ Fax: _____ Email:_____

1. Stair Type: ____ Commercial Egress ___Accessible Commercial Egress
____ Commercial Residential Egress ___Industrial Egress
Application _____

2. Building Code/Regulation Requirements:
_____ IBC (International Building Code) ____ ADA (American Disabilities Act)
Numerical Occupancy _____ (maximum number of people the stair must accommodate)
Sprinkler system in place at the stair location? ___ yes ___no

3. Stair Stringer Material: _____ Carbon Steel
Finish: ____Safety Yellow Powder Coat ____ Iron Gray Powder Coat ___ Gray Primer
____Hot Dip Galvanized ____ Choice of 180 Colors Powder Coat

4. Tread Material: _____ Carbon Steel
Finish: ____Safety Yellow Powder Coat ____ Iron Gray Powder Coat ___ Gray Primer
____Hot Dip Galvanized ____ Choice of 180 Colors Powder Coat

5. Tread Type: ____ Diamond Treadplate ____ Concrete Pan
____ Smooth Plate ___ Bar Grating (IBC Industrial ONLY)

6. Tread Width: ____ 36" ____44" ____48" ____OTHER _____"
Custom with available between 36" and 60" for all but Bar Grating Tread Types

7. Floor to Floor Vertical Height _____ *Maximum 12'

8. Maximum Requested Riser Height _____ Available Floor Space _____
(we will work within your building code requirements and your requested riser height and floor space to configure the best stair to suit your requirements)

9. Stair Rail System: We offer a variety of options including guard rails on one or both sides of the stair, with or without handrails, and wall mounted handrails when guard rails are not used. If you select no guard rails, but select handrails you will be quoted the wall mounted handrails.

____ Guard Rail on Both Sides of Stair	____ Handrail on both sides of stair
____ Guard Rail on Left Side of Stair (ascending)	____ Handrail on left side of stair
____ Guard Rail on Right Side of Stair (ascending)	____ Handrail on right side of stair
____ No Guard Rails	____ No Handrails Rails

Your code may require a guard rail on both sides of the stair unless there is a wall or other appropriate guard.

Rail Material (if different from Stringer material): Carbon Steel Only
Finish: ____Safety Yellow Powder Coat ____ Iron Gray Powder Coat ___ Gray Primer
____Hot Dip Galvanized ____ Choice of 180 Colors Powder Coat

10. Assembly:

____ Unassembled	____ Fully Assembled
____ Partially Assembled: Tread to Stringer	____ Partially Assembled: Rails to Stringer

We recommend unassembled. Our stair is very simple to assemble and install, using provided hardware. This is the most economical option. All assembly hardware is provided.
