

Quick Ship Crossover Stairs

Benefits and Options

Engineered for light-weight performance, the Quick Ship Crossover Bridge from Lapeyre Stair delivers rugged durability at less than half the weight of traditional metal stairs—without sacrificing strength.

With a robust 1,000 lb load capacity, 6 vertical and 7 horizontal clearances, and in-stock availability, it's the fast, reliable solution for your access needs. No waiting. No compromise. Just order and install.

Lapeyre Stair's Crossover Bridge systems are engineered to easily address the needs of a wide range of industrial applications.

- Improve workflow efficiency with direct access over obstacles.
- Maximize floor space by utilizing vertical movement.
- Reduce downtime caused by blocked or congested pathways.
- Support compliance with OSHA and safety regulations.
- Minimize trip hazards.

01 Half the Weight

Our crossover bridges are pre-engineered and designed to cut more than 50% of the weight from traditional, standard stair crossovers.

02 In Stock, Ready to Ship

3 popular sizes of our Quick Ship Crossover Bridges are in stock and ready to ship, and will leave our warehouse within the week.

03 1000 lb. Capacity

All Lapeyre Stair Crossover Bridges support a minimum 1,000 lb load capacity.

04 Fixed, Popular Sizes

With 6 vertical clearance heights and 7 horizontal spans to mix and match, the Quick Ship Crossover Bridge can meet just about any need.

Item	Specifications
Platform Heights	28.5", 38", 47.5", 57", 66.5", and 76"
Platform Lengths	24", 30", 36", 42", 48", 54", and 60"
Platform Width	24"
Platform Vertical Clearances	27.125", 36.625", 46.125", 56.625", 65.125", and 74.625"
Platform Horizontal Clearances	21", 27", 33", 39", 45", 51", and 57"
Industries	Material Handling, Automotive, Bulk Material Handling, Canning & Bottling, Wastewater, Food Processing, Pet Food Processing, Consumer Package Goods, ASRS Systems Port Access
Applications	Rooftop Crossovers, Conveyor Crossovers, Piping Crossovers, Equipment Crossovers
Materials	Carbon Steel
Finishes	Powder Coated Safety Yellow or Galvanized
Handrail Compliance	OSHA
Treads	Perforated
Capacity	1,000 lbs
